

MILAY Trek

A THREE-DAY TREK

Ranking Easy

Milay is a Malagasy word which means ‘wonderful, no problems to be expected’. The MILAY trek is a three-day stay in Fetraomby with easy walks and time for a swim near the 120 metres high waterfall. Every night, you will sleep in one of the comfortable guest rooms with a private bathroom outdoors.

Summary

During the MILAY trek you will pass by several villages where you will experience the friendliness of the population and the region’s culture. For example, they will show you a place where women go to pray when they have problems becoming pregnant. Furthermore, there is fauna and flora to enjoy. You will probably spot chameleons, lemurs, geckos and other animals endemic to Madagascar. And the guide will point out different plants and trees and their healing or other purposes. And there are even more possibilities to enjoy yourself! After a three hour hike to the 120 metres high waterfall, you might want to freshen up and swim in one of the waterfall’s small lakes. A little ceremony is required before you may enter the water. If you feel very energetic you can also choose to climb to the top of the waterfall. And after these dips into nature there will be sufficient time to get to know Fetraomby village and its inhabitants a little better (Fetraomby is the main village of the Fetraomby rural community).

Activities and sights

- Walking in the jungle
- Fauna and flora
- Visiting different villages
- Music and dance
